former of a series of the second

ILLINOIS CENTRAL BAILEGAD COMPANY.

which, as they will perceive, will enable them, by proper energy, perseverance and industry, to provide confurtable and permanent house for thomselves and families, with, comparatively speaking, very little capital. LANDS OF ILLINOIS. We State in the Valley of the Mississippi offers so great an indicement to the settler as the State of Illinois. There is no portion of the world where all of the conditions of climate and soil so admirably combine to produce those two great staples, Gons and William, as the Prairies of Illinois.

RIGH BOLLING PRATRIE LANDS. The doep rich foam of the prairies is calificated with such won-derful facility that the farmers of the Eastern and Middle States are moving to Illinois in great numbers. The area of Illinois is about equal to that of England, and the soil is so rich that it will support twenty millions of people. EASTERN AND SOUTHERN MARKETS.

These lands are centiguous to a railroad 700 miles in length, which connects with other roads, and navigable inkes and riv-rs, thus afferding an unbroken communication with the Eastern APPLICATION OF CAPITAL

Thus far expited and labor have been applied to developing the coil; the great resources of the State in coal and iron are almost intosched. The invariable rule that the mechanic arts flourish set where food and fuel are cheapent, will follow at an early lay in Hilmois, and in the course of the next ten years the natural laws and necessities of the case warrant the belief that a least five hundred thousand people will be engaged in the State of Illinois in the various manufacturing employments. BAILBOAD SYSTEM OF ILLINOIS. Over \$100,000,000 of private capital have been expended en the relirosel system of liknois. Insumuch as part of the income from several of these works, with a valuable public load in lands, go to diminish the State Expenses, the TAISS ARE LIGHT, and must, consequently, every day decrease.

THE STATE DEST. The State Debt is only \$19,165,308 14, and witain the last three years has been reduced \$2,009,748 80; and we may reasonably expect that in ten years it will become extinct. PRESENT POPULATION. The State is rapidly filling up with population: 808,000 per sons having been added since 1850, making the present popula-tion 1,719,496—a ratio of 100 per cent in 10 years.

AGRICULTURAL PRODUCTS.

The Agricultural Products of Illinois are greater than those of any other State. The Products set out during the past year exceeded 1,500,000 dans. The wheat cop of 1800 approaches 35,800,000 of bushels, while the corn crop yields not less than PERTILITY OF SOIL.

Nowhere can the instartings farmer source such immediatere sults for his taker as upon these prairie suits, they being com-posed of a deep, rich loam, the fertility of which is unsurpassed by any on the globe.

TO ACTUAL CULTIVATORS.

Hence 1854 the company have sold 1,300,000 nerse.

They sell only to actual cultivators, and every contract contains an agreement to cultivaters. The road has been constructed through these leads of an expense of \$30,000,000.

In 1850, the population of forty nine counties through which it passes was only 335,508, since which, 479,293, have been added, making the whole population \$14,891—a gain of 143 per cent.

EVIDENCES OF PROSPERITY.

As an evidence of the thrift of the people, it may be stated the 600,000 tuns of freight, including 5,000,000 bushels of grain and 250,000 barrels of flour, were forwarded over the line last BDUCATION. BDUCATION.

Hechanics and workingnen will find the free school system encouraged by the State and endowed with a large revenue for the support of schools. Their children can live in sight of the church and school houses, and grow up with the prosperity of the leading State in the Great Western Empire.

PRICES AND TERMS OF PAYMENT. The prices of these lands vary from \$0 to \$25 per acre, de-cording to location, quality, &c. First-class farming lands sell for about \$10 or \$12 per acre; and the relative expense of subduting prairie land as compared with wood land is in ratio of 1 to 10 in favor of the former. The terms of sale for the bulk of the landscall he

ONE YEAR'S INTEREST IN ADVANCE at six percent per ainsism, and six interest notes at six per cent, payable respectively in one, two, three, tour, five, and six years from date of sale; and four notes for principal, payable in four, five, six, and seven years from date of sale; the contract stipulating that one tenth of the tract purchased shall be fenced and cultivated each and overy year, for five years from the date of mie, so that at the end of five years one-half should be fenced and makes of liveston.

TWENTY PER CENT WILL BE DEDUCTED TWENTY PER CENT WILL BE DEDUCTED from the valuation for cash, except the same should be at six dollars per acre, when the cash price will be five dollars.

Pamphiets discriptive of the lands, soil, climate, productions, prices, and terms of payment, can be had on application to J. W. FOETER, Land Commissioner, Illinois Central Railroad, Chicago, Illinois.

For the names of the towns, Villages and Chicago, Illinois. the Illinois Central Railroad see pages 185, 169, 190, Apple ton's Railway Guide.

BESSWARDS AT PERASURE. IN THE WHEELY.

THE AMERICAN CRISIS ABROAD.

French Correspondent's View of the War in America. The following is an extract from the translation of an American correspondence, which appears in the Paris D'Opinione Nationale, of the 19th August. It is interesting, and obtains some importance from the fact of it appearing exclusively in Prince Narous on's home organ -a New York paper going so far us to sesert the letter was written by the Prince him. mous and irreparable logaries on the other, salf or at his dictation. The letter is dated New

initiative is everything. And so even the military cost utterly out of proportion to the value of the organization rest naturally among Americans on miscrable result. Now that is the case of the two principles entirely at variance with those on which Confederacies across the Atlantic, where the surwe set. I confess that in this respect the system of the possible. Up to the present the envise limit of the possible. Up to the present the envisent of volunteers goes on pretty well, but it cannot be expected that four hundred thousand lighting men can be raised in that way. You know better than any one that four hundred thousand lighting men is no small affair when they have to be raised, supported, paid, and made to light. But yet I do not see why, at the rate at which things go on, the Union might not reassemble sixty thousand volunteers, which would be quite a respectable force. At present or within a few days, when the last of the militia regiments shall have withdrawn, there are not and will not be, any but valunteers under the standard. They have no means of excluding spies giments shall have withdrawn, there are not and they have to make a standard army and a fleet. of the Union and in the positions that protect Washington. You will probably inquire among what classes of the point ation volunteers are recruited, and what is the motive that impels the volunteers to Their revenue, at its beat, before the war, was only enlist—patriotism or the eleven dollors a month?
I confess that I have seen enough volunteer regiments to hazard an opinion on that point. The opinion of those who lock upon the worst side of things is that in contrast with the personnel of the militia, which represents the middle, industrious, honest, but not very warlike class of the population, the volunteer same will not only present the scum of emigration, and will be recruited among that the volunteer sumy will not only present the scum American credit is not so good as British, nor is of emigration, and will be recruited among that the credit of a Federal Union in process of dissofloating mass of adventurers whom Europe sends luttion likely to be equal to that of a united peo to the United States, and whom work disguests as Lassly, war, which charges in character accord well in the New as in the Old World. It is certain to circumstances, establishes appeal rules of pro-

in the ranks of the new corps. France, Scotland, Ireland, Germany and Italy have given their names, varied in a thousand shapes, to a great number of corps, the elements of which | humber, the strongth and the munition nea, who have served less or more, and who seem of Solferino or the Malakoff. I should be sorry to pass a rash judgment upon brave compatriots, who appear to me to be very careiess, very gay, very sociable, but I cannot help reflecting upon what sociable, but I cannot help reflecting upon what sociable, but I cannot help reflecting upon what what has happened is not accident, no result of poseries of adventure have been able to bring these Parisians from the Place Manbert to the shores of the Potomac, there to risk there lives for the eventnore clearness of vision than the Americans, Eng-

lish and Germans, they appear to reckon little upon populous part, and the best soldiers on the conti-the eleven dollars, but what I can certify is, that next of Europe, advancing into a territory, the they are quite mer sible to the glory of the flag sparse and poor population of which scarcely surwith the thirty-four stars and the fate of the unfortunate negroes.

You see by this what the weak side of all this the tremendous rout that ensued. If any one will rganization is ; it is not an affair of appreciation, attempt to compare the means of the Federalists it is an affair of arithmetic. The weak aide, the very weak side is the \$11. For 100,000 men-and on that footing, the expense is five and a half millions of france per month, or sixty millions per year. every position, every line in their territory, then the For 400,000 men, the expense is quadrupled—two Russians were in theirs. They have mountainous hundred and sixty four millions per year. And re-collect that this enormous figure represents only the soldier's pucket money; that the provisioning of them; they have railways, and abundance of food American soldiers are more abundant and more ex-pensive than with us by nearly double; that, in fine, superior in generalship, and in the social organizathe most frightful dilapidation and disorder (o ) less-edly reign in what is called the military administ; a-The result is that thus far they have shown they tion, and which is really only a continuation of can dispute every inch, and keep the invader always measures adopted from day to day by localities for under the apprehension of being outflanked or the account of the Federal Government for the pur- driven back upon his own capital. Against all this So the North Americans estimate the cost of the war at ever a million dollars per day. That is entermous for a country reduced to about twenty millions of inhabitants, deprived of its great element of commerce—Cotton—and enjoying a doubtful credit. One thing that is certain is, that the militia soldiers have seen nothing of the pay premised them; that at New York there have been disturbances caused by the tumultuary demands of soldiers. pose of supplying the prime necessities of the troops. It can only be said that the Northern States have the

in New York are well supported, but have not touched a cent. I cannot speak of those who are with the army—because I have not seen them—but I am assured that their wretchedness was great.

We are in a condition to offer advice. We can I am assured that their wretchedness was great. We are in a condition to offer advice. We can and that the streets of Washington were full of advice the Northern States of America, as we can the occupation of a frontier, the attack or defence When the great battle of the 21st was fought at | do and by is not only to be as good at the So a General McDowell, without its being easy to say

The Trains leaving Rashville at 80:15 A M co expired and because they confess they have had enough of war. Never mind; these brave people enter, and are received as conquerors, with music at their head, processions and acclamations of the people, flowers and illuminations. It is not that they disseminate their retreat, or rather their rout. They relate to their follow-citizens how they have been utterly routed, and these stories inflame the imaginations and exalt the enthusiasm of their control of their own do and what new powers and combinations may arise, and particularly how far the West-tons may arise, and particularly how far the day of the west-tons may arise, and particularly how far the west-tons may arise, and particularly

is driven to an extraordinary degree. It must even be said that the Northern States have completely

ride negroes, &c. They have but one thing at cart that is, the honor of the Confederation, the mult done to the hag of the Union. The South has subdued. Negroism has always had an incomsiderable piace in the quarrei, and has been only a pretext. To-day the word "abolition" is not even heard pronounced. It is a war purely political, a war of pasilos; and it is really strange to see a people so positive, so attached to their material interests, so foreign to our traditional errors and to our Old World prejudices, if you choose, fight each other only for a sentiment, for a point of honor, and almost through a chivalrous april.

But there is nothing save contrast, or estimate one

But there is nothing save contrast, or rather in con and the Laites States. They vote hundreds of millions, well knowing they will not pay them: they vote soldlers, well knowing that soldiers will not come; and in spite of an apparently very pacific disposition, they continue with an unequalled stinuty a war which rains them-a war without ect, for all this affair can have but one issue-spolitical separation of the North and South, and resumption of commercial affairs between them avarice, enthusiasm for the war, enthusiasm to stay at home, political fanaticism and egotistical specula-tions—there is the incomprehensible melange which
